

COLLABORATION SAVES LIVES

A Specialty Hospital System for the Treatment of Eating Disorders

We are passionate about working together to save lives.

Veritas Collaborative envisions a world in which all persons with eating disorders and their families have access to best-practice care and hold hope for a cure. Achieving this vision requires *a collaborative community of care* — patients, families, providers, communities, and the resources and talents of the entire field working together to make a meaningful difference in the lives of those affected by eating disorders. *Someone dies from an eating disorder nearly every hour in the U.S.* — through collaboration, we can change this statistic. Individuals *can* and *do* recover when given access to the care they need at the right level and at the right time.

What we offer

- Evidence-based care
- Treatment tailored to the individual in a gender-diverse and inclusive environment
- Therapy informed by a unique blend of Dialectical Behavior Therapy (DBT), Cognitive Behavior Therapy (CBT), Family Based Therapy (FBT), and other approaches
